* The preferences must be applied to the price of each line item of end product or work, as applicable, regardless of whether award is to be made by item or lot. Accordingly, this Preferences Calculator should be used separately for each line item. Of course, a preference must not be applied to an item for which a bidder does not qualify.

ERROR: It is practically impossible for labor costs to equal 100% (or more) of total bid price. Please adjust the subcontractor preferences to reflect a total less than 100%.
