**STATEWIDE CONTRACT FOR READY TO USE MOSQUITO CONTROL PESTICIDES**

**CONTRACT PERIOD: Initial Terms: November 1, 2016 through October 31, 2017**  
**Maximum Terms: November 1, 2016 through October 31, 2021**

**Shipping Terms: All items shall be FOB destination**

**24 HOUR EMERGENCY NUMBERS ARE ALSO LISTED WITH CONTACT INFORMATION**

**[Link to Solicitation documents](#)**

All items shall be FOB destination

All items shall be delivered no later than fifteen days after contractor's receipt of the purchase order. If the using governmental unit requests delivery sooner than the time specified, contractor may invoice the ordering entity any additional shipping charges approved by the ordering entity on the purchase order.

All items must be new.

The contractor shall comply with current EPA and Federal Insecticide Fungicide Rodenticide Act requirements and specifications. All pesticides offered for sale in the State of South Carolina must comply with the S. C. Pesticide Control Act, Title 46, Section 46-13-10 of the South Carolina Code of Laws (1976). Registration shall be in accordance with Title 46, Section 46-13-30 and any subsequent regulations, which may be applicable.

**Containers:** The containers may be returnable, reusable, and recyclable or of materials that can be properly disposed of according to South Carolina Laws as agreed upon annually. The contractor shall be responsible for the funding development and implementation of a system to provide for the return of empty returnable, refillable polyethylene containers to the product manufacturer from the individual purchasers. All drums, pails or other packaging must be appropriately labeled to indicate both active and inert ingredients contained in each drum, pail or other packaging. Label must also specify for ground and aerial ULV application for mosquito control or appropriate larviciding or residual product application. 20 MPH ground ULV application labeling shall be supplied

**Technical Assistance:** The contractor shall furnish technical assistance or service in the handling, transport, storage, spill clean-up information, general and specific information requests, container decontamination procedures and instructions and the proper application of pesticides for public health purposes upon request to purchasers of the product. Such service shall be available within 2 to 3 hours following telephone request and without additional cost to the using agency. On-site responses will be arranged, if needed. On-site response is expected within forty-eight hours.

In the event of a major pesticide related accident and/or other disaster associated with these products, the manufacturers and contractors must provide full assistance, if requested by any agency, to help minimize the impact of disaster by providing technical on-site assistance. Telephone response to request for technical assistance must be within 2 to 3 hours of contact by emergency call number, and on-site responses must be made within 10 hours of initial contact. The cost of these services will be at the expense of the successful contractor.

**Inspection Rights:** The state reserves the right to inspect any or all pesticides delivered under this contract for the purpose of analysis/evaluation. Samples from pesticides shipped into South Carolina in the fulfillment of this contract will be taken for analysis by Clemson University's Department of Pesticide Regulation. It will be the responsibility of the contractor to pick up any pesticide delivered that does not meet contractual requirements within 30 days of notice. Government entities purchasing from the state contract can request sampling. If results are unsatisfactory, the contractor will be notified to remove the product at a specific time and at the contractor's expense.

**Labeling:** Labels and labeling shall comply with all applicable State and Federal Laws and regulations, which regulate the sale, distribution, handling and/or transportation, storage, disposal and use of pesticides within the State of South Carolina. An identifying lot number must be indicated on each container.

**Training Requirements:** The contractor shall provide training and safety materials and training support services in the use and application of the pesticides. Materials and training provided shall meet the approved needs of the ultimate users. Such materials and sessions must address scientifically sound mosquito control, safety practices and proper application techniques as well as environmental or wildlife impacts created by pesticides used in mosquito control.

In addition, the training sessions should include information on storage, any pertinent DOT regulations and available vendor services and materials not specified in the contract.

Technical training sessions shall be provided twice annually by the manufacturer. The South Carolina Mosquito Control Association will coordinate a mutually agreeable location and time for these sessions. Sessions will be designed for agency staff members and product users
