STATEWIDE CONTRACTS FOR BULK DELIVERIES OF ULTRA LOW-SULFUR DIESEL (ULSD), AND B5 BIODIESEL

New contracts for transport and tankwagon loads of ULSD and biodiesel (B5) have an effective start date of April 1, 2017. It is important that end users identify which of the 4 zones fuel will be delivered to in order to choose the correct vendor and verify pricing. **Please be aware there has been a slight change to the 4 zone map structure for these contracts. Horry and Marion counties have been moved from zone 3 to zone 4. Following is a link to the new 4 zone pricing structure:**

[NEW 4 ZONE MAP](#)

Contract pricing is updated daily and posted on Procurement Services website and be accessed by clicking [here](#). End users should verify that the invoiced price per gallon matches the posted pricing for the date fuel was delivered.

The solicitation and contract documents can be found by clicking [here](#).
