Any designs, drawings or specifications prepared or furnished by the Architect that contain errors, conflicts or omissions will be promptly corrected by the Architect at no additional cost to the Owner. The Owner's approval, acceptance, use of or payment for all or any part of the Architect's services shall in no way alter the Architect's obligations or the Owner's rights hereunder.

§ 2.3 The Architect shall provide its services in conjunction with the services of a Construction Manager as described in AIA Document C132™-2009, Standard Form of Agreement Between Owner and Construction Manager, SCOSE Edition. § 2.6 Insurance Coverages~~The Architect shall maintain the following insurance for the duration of this Agreement. If any of the requirements set forth below exceed the types and limits the Architect normally maintains, the Owner shall reimburse the Architect for any additional cost.~~

§ 2.6.1 The Architect shall procure and maintain in effect during the term of this Agreement the insurance coverages described below, which insurance shall be placed with insurance companies authorized to do business in the State of South Carolina and rated A minus VII or better by the current edition of Best's Key Rating Guide or otherwise approved by the Owner. If a general aggregate limit applies, either the general aggregate limit shall apply separately to the project or the general aggregate limit shall be twice the required occurrence limit. This contract shall be considered to be an "insured contract" as defined in the policy. The Architect may use umbrella or excess liability insurance to achieve the required coverage for Comprehensive General Liability and Automobile Liability, provided that such umbrella or excess insurance results in the same type of coverage as required for the individual policies.

§ 2.6.4 Workers' Compensation Insurance with statutory benefits and limits which shall fully comply with all State and Federal requirements and have limits not less than \$500,000 per accident, \$500,000 per disease and \$500,000 policy limit on disease, at statutory limits and Employers Liability with a policy limit of not less than (\$).

§ 2.6.6 The Architect agrees to require the Subconsultants to comply with the insurance provisions required of the Architect pursuant to this Agreement unless the Architect and the Owner mutually agree to modify these requirements for the Subconsultants whose work is of relatively small scope. The Architect agrees that it will contractually obligate its Subconsultants to advise the Architect promptly of any changes or lapses of the requisite insurance coverages and the Architect agrees to promptly advise the Owner of any such notices the Architect receives from its Subconsultants. The Architect agrees that it will contractually obligate its Subconsultants to indemnify and hold harmless the Owner to the same extent that the Architect is required to do so as provided in this Agreement. The certificates will show the Owner as an additional insured on the Comprehensive General Liability, Automobile Liability, umbrella or excess policies.

§ 2.6.7 The Architect shall not make changes in or allow the required insurance coverages to lapse without the Owner's prior written approval thereto. Should a notice of cancellation be issued for non-payment of premiums or

Init.

any part thereof, or should the Architect fail to provide and maintain certificates as set forth herein, the Owner shall have the right, but not the obligation, to pay such premium to the insurance company or to obtain such coverage and to deduct such payment from any sums that may be due or become due to the Architect, or to seek reimbursement for said payments from the Architect. Any sums paid by the Owner shall be due and payable immediately by the Architect upon notice from the Owner. Receipt and review by the Owner of any copies of insurance policies or insurance certificates shall not relieve the Architect of his obligation to comply with the insurance provisions of this Agreement. The insurance provisions of this Agreement shall not be construed as a limitation on the Architect's responsibilities and liabilities pursuant to the terms and conditions of this Agreement.

§ 2.6.8 Endorsements & Additional Insured

§ 2.6.8.1 All policies for insurance must be endorsed to contain a provision giving the Owner a ten (10) days prior written notice of cancellation of that policy for non-payment of premiums and a thirty (30) day prior written notice by certified mail of any cancellation or nonrenewal of that policy (including individual coverages of the policy, or any reduction in policy limits) for any other reason.

§ 2.6.8.2 Prior to performing services, and thereafter upon replacement of each required policy of insurance, the Architect shall provide to the Owner a written endorsement to the Architect's general liability insurance policy that (i) names the Owner as an additional insured, (ii) where such notice is available, provides that no cancellation, non-renewal, or expiration of the coverage contained in such policy shall have effect unless all additional insureds have been given at least ten (10) days prior written notice of cancellation for non-payment of premiums and thirty (30) days prior written notice of cancellation for any other reason, and (iii) provides that the Architect's liability insurance policy shall be primary, with any liability insurance of the Owner as secondary and noncontributory. Prior to performing services, and thereafter upon renewal or replacement of each required policy of insurance, the Architect shall provide to the Owner a signed, original certificate of liability insurance (ACORD 25). The certificate shall identify the types of insurance, state the limits of liability for each type of coverage, include a provision for written notice prior to cancellation as set forth in Section 2.6.8.2(ii), name the Owner as a Certificate Holder, provide that the general aggregate limit applies per project, and provide that coverage is written on an occurrence basis. Both the certificates and the endorsements must be received directly from either the Architect's insurance agent or the insurance company. Information concerning reduction of coverage on account of revised limits or claims paid under the General Aggregate, or both, shall be furnished by the Architect with reasonable promptness.

§ 2.7 Third Party Indemnification. Without limitation and notwithstanding any provision in this agreement, the Architect shall indemnify and hold harmless the Indemnitees for and against claims, damages, losses and expenses (including attorneys' fees) asserted by a third party against an Indemnitee arising out of or resulting from negligent acts or omissions of the Architect, a consultant, anyone directly or indirectly employed by them or anyone for whose acts they may be liable, regardless of whether or not such claim, damage, loss or expense is caused in part by a party indemnified hereunder, provided that such claim, damage, loss or expense is attributable to bodily injury, sickness, disease or death, or to injury to or destruction of tangible property (other than the Work itself). The Architect shall not be required to indemnify an Indemnitee to the extent Indemnitee's damages result from Indemnitee's own negligence. Such obligation shall not be construed to negate, abridge, or reduce any other rights, including any other obligations of indemnity, which would otherwise exist as to a party or person described in this Section 2.7. As used in this paragraph, "Indemnitees" means the State (including its instrumentalities, agencies, departments, boards, and political subdivisions), the contractor, the subcontractors at all tiers, and the officers, agents and employees of all the forgoing.

§ 2.8 Decisions By The Architect. Any reference in the Contract Documents to the Architect taking action or rendering a decision with a "reasonable time" or "reasonable promptness" is understood to mean no more than fourteen (14) days, unless otherwise specified in the Contract Documents or otherwise agreed to by the parties.

§ 3.2.8 In the further development of the Drawings and Specifications during this and subsequent phases of design, the Architect shall be entitled to rely on the accuracy of the estimates of the Cost of the Work, which are to be provided by the Construction Manager under the Construction Manager's agreement with the Owner.

§ 3.3.3 Upon receipt of the Construction Manager's ~~information and~~ estimate at the conclusion of the Design Development Phase, the Architect shall take action as required under Sections 6.5 ~~and 6.6~~ and request the Owner's approval of the Design Development Documents. The Architect shall provide the Owner, OSE, and Construction Manager with a summary of the approved revisions to be made to the Design Documents in accordance with the review comments and cost estimate. If revisions to the Design Development Documents are required to comply with the Owner's budget for the Cost of the Work at the conclusion of the Design Development Phase, the Architect shall incorporate the required revisions in the Construction Documents Phase.

§ 3.4 Construction Documents Phase Services

§ 3.4.1 Based on the Owner's approval of the Design Development Documents, and on the Owner's authorization of any adjustments in the Project requirements and the budget for the Cost of the Work, the Architect shall prepare Construction Documents for the Owner's approval, ~~OSE's review~~, and the Construction Manager's review. The Construction Documents shall illustrate and describe the further development of the approved Design Development Documents and shall consist of Drawings and Specifications setting forth in detail the quality levels of materials and systems and other requirements for the construction of the Work. The Owner and Architect acknowledge that in order to construct the Work the Contractor will provide additional information, including Shop Drawings, Product Data, Samples and other similar submittals, which the Architect shall review in accordance with Section 3.6.4.

§ 3.4.7 Maximum Practicable Competition

§ 3.4.7.1 The purpose of a specification is to serve as a basis for obtaining a supply, service, information technology, or construction item adequate and suitable for the State's needs in a cost effective manner, taking into account, to the extent practicable, the cost of ownership and operation as well as initial acquisition costs. It is the policy of the State that specifications permit maximum practicable competition consistent with this purpose. Specification shall be drafted with the objective of clearly describing the State's requirements. All specifications shall be written in a non-restrictive manner as to describe the requirements to be met. (R. 19-445.2140(B)). The Specifications shall be drafted so as to assure cost effective procurement of the Owner's actual needs and shall not be unduly restrictive. (Section 11-35-2730)

§ 3.5.7.2 Unless necessary, the Architect shall not name less than three (3) approved manufacturers for any specification which specifies a product by manufacturer name or catalogue number.

§ 3.5 Bidding or Negotiation Phase Services

§ 3.5.1 General

The Architect shall assist the Owner and Construction Manager in establishing a list of prospective ~~bidders~~contractors. Following the OSE and Owner's approval of the Construction Documents and estimate of the Cost of the Work, the Architect shall assist the Owner and Construction Manager in (1) obtaining ~~either~~ competitive bids ~~or negotiated proposals~~; (2) confirming responsiveness of bids or proposals; (3) determining the successful bid or proposal, if any, including obtaining and providing information to assist the Owner in making a determination of bidder responsibility; and (4) awarding and preparing contracts for construction. - .3 participating in a pre-bid conference for prospective bidders, subject to Regulation 19-445.2042;
- ~~and~~
- .4 preparing responses to questions from prospective bidders and providing clarifications and interpretations of the Bidding Documents in the form of addenda;
- .5 participating in the opening of the bids, and subsequently documenting and distributing the bidding results, as directed by the Owner; and
- .6 evaluating the responsibility of bidders.

§ 3.5.2.3 The Architect shall consider requests for substitutions and equivalent products, if the Bidding Documents permit substitutions and equivalent products, and shall consult with the Construction Manager and prepare and distribute addenda identifying approved substitutions to all prospective bidders.

§ 3.5.2.4 If the lowest bona fide bid exceeds the Owner's budget for the Cost of the Work by less than ten percent, and the Owner elects to award the Contract, the Architect shall, without additional charge to the Owner, assist in negotiations to reduce the bid to an amount within the Owner's budget for the Cost of the Work, but not more than 10% below the Owner's budget for the Cost of the Work.

§ 3.5.2.5 If the lowest bona fide bid exceeds the Owner's budget for the Cost of the Work by more than ten percent and the Owner elects to continue the Project, the Architect shall, without additional charge to the Owner, modify the Contract Documents as necessary to bring the Project within the Owner's budget for the Cost of the Work. The

Architect shall be responsible for all its costs associated with the redesign and rebidding of the Project, including the reproduction of revised documents and fees for any new or revised permits based on the revised plans. However, the Architect shall not be required to perform such additional services at no cost to the Owner if the unfavorable bids are the result of conditions beyond the Architect's reasonable control.

§ 3.5.2.6 If the Owner elects to terminate the Project, then this Contract is terminated in accordance with Article 9.

§ 3.5.3 Negotiated Proposals

§ 3.5.3.1 Proposal Documents shall consist of proposal requirements, and proposed Contract Documents.

§ 3.6 Construction Phase Services

§ 3.6.1 General

§ 3.6.1.1 The Architect shall provide administration of the Contract between the Owner and the Contractor as set forth below and in AIA Document A232™–2009, General Conditions of the Contract for Construction, Construction Manager as Adviser, SCOSE Edition, unless otherwise provided in this Agreement. The Architect shall perform all duties and obligations that are assigned to the Architect in the General Conditions unless such duties or obligations on the part of the Architect are expressly waived in this Agreement. If the Owner and Contractor modify AIA Document A232–2009, SCOSE Edition, those modifications shall not affect the Architect's services under this Agreement unless the Owner and the Architect amend this Agreement.

§ 3.6.1.2 The Architect shall be a representative of and advise and consult with the Owner and Construction Manager during the Construction Phase Services. The Architect shall have authority to act on behalf of the Owner only to the extent provided in this Agreement. The Architect shall not have control over, charge of, or responsibility for the construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, nor shall the Architect be responsible for the Contractor's failure to perform the Work in accordance with the requirements of the Contract Documents. The Architect shall be responsible for the Architect's negligent acts or omissions, but shall not have control over or charge of, and shall not be responsible for, acts or omissions of the Construction Manager, or the Contractor or of any other persons or entities performing portions of the Work.

§ 3.6.1.3 Subject to Section 4.3, the Architect's responsibility to provide Construction Phase Services commences with the award of the Contract for Construction and with the exception of the duties set forth in Section 3.6.6.4, terminates twenty one (21) days after on the date the Architect issues the final Certificate for Payment.

§ 3.6.2 Evaluations of the Work

§ 3.6.2.1 The Architect, as a representative of the Owner, shall visit the site at intervals appropriate to the stage of construction, or as otherwise required in Section 4.3.3.(1) to become generally familiar with and to keep the Owner informed about the progress and quality of the portion of the Work completed, (2) to endeavor to guard the Owner against defects and deficiencies in the Work, and (3) to determine, in general, if the Work ~~observed~~ is being performed in a manner indicating that the Work, when fully completed, will be in accordance with the Contract Documents. However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of the site visits, the Architect shall, at least once a month, submit a written report to the Owner to keep the Owner reasonably informed about the progress and quality of the portion of the Work completed, and report to the Owner and the Construction Manager (1) known deviations from

the Contract Documents and from the most recent construction schedule, and (2) defects and deficiencies ~~observed~~ in the Work.

§ 3.6.2.1.1 Site visits shall be made by representatives of the Architect and its consultants who are knowledgeable of the Project requirements and competent in each discipline having work in current progress. These representatives shall visit the site at intervals to assure conformance with the design shown in the Contract Documents and to observe, as experienced and qualified design professionals, the progress and quality of the various aspects of the Contractor's Work.

§ 3.6.2.2 The Architect has the authority to reject Work that does not conform to the Contract Documents, unless the Owner decides otherwise, and shall notify the Construction Manager about the rejection. Whenever the Architect considers it necessary or advisable, the Architect, upon written authorization from the Owner and notification to the Construction Manager, shall have the authority to require inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work is fabricated, installed or completed. However, neither this authority of the Architect nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect to the Contractor, Subcontractors, material and equipment suppliers, their agents or employees or other persons or entities performing portions of the Work.

§ 3.6.2.3 The Architect shall interpret and decide matters concerning performance under, and requirements of, the Contract Documents on written request of the Construction Manager, Owner, or Contractor through the Construction Manager. The Architect's response to such requests shall be made in writing with reasonable promptness, but no more than within fourteen (14) days of receipt of the request by the parties~~any time limits agreed upon or otherwise with reasonable promptness.~~

§ 3.6.2.4 Interpretations and decisions of the Architect shall be consistent with the intent of and reasonably inferable from the Contract Documents and shall be in writing or in the form of drawings. When making such interpretations and decisions, the Architect shall endeavor to secure faithful performance by both Owner and Contractor, and shall not show partiality to either, ~~and~~ Except in the case of interpretations resulting in omissions, defects, or errors in the Instruments of Service or perpetuating omissions, defects, or errors in the Instruments of Service, the Architect shall not be liable for results of interpretations or decisions rendered in good faith. The Architect's decisions on matters relating to aesthetic effect shall be final if consistent with the intent expressed in the Contract Documents.

§ 3.6.2.5 Unless the Owner and Contractor designate another person to serve as an Initial Decision Maker, as that term is defined in AIA Document A232-2009, SCOSE Edition, the Architect shall render, with reasonable promptness, initial decisions on Claims between the Owner and Contractor as provided in the Contract Documents.

§ 3.6.3 Certificates for Payment to Contractor

§ 3.6.3.1 The Architect shall review and certify an application for payment not more frequently than monthly. Within seven days after the Architect receives an application for payment forwarded from the Construction Manager, the Architect shall review and certify the application as follows:

1. Where there is only one Contractor responsible for performing the Work, the Architect shall review the Contractor's Application and Certificate for Payment that the Construction Manager has previously reviewed and certified. The Architect shall certify the amount due the Contractor and shall issue a Certificate for Payment in such amount.
2. Where there are Multiple Prime Contractors responsible for performing different portions of the Project, the Architect shall review a Project Application and Project Certificate for Payment, with a Summary of Contractors' Applications for Payment, that the Construction Manager has previously prepared, reviewed and certified. The Architect shall certify the amounts due the Contractors and shall issue a Project Certificate for Payment in the total of such amounts.

§ 3.6.3.2 The Architect's certification for payment shall constitute a representation to the Owner, based on (1) the Architect's evaluation of the Work as provided in Section 3.6.2, (2) the data comprising the Contractor's Application for Payment or the data comprising the Project Application for Payment, and (3) the recommendation of the Construction Manager, that, to the best of the Architect's knowledge, information and belief, the Work has progressed to the point indicated and that the quality of the Work is in accordance with the Contract Documents.

THIS COMPARATIVE DOCUMENT IS FOR REFERENCE PURPOSES ONLY AND IS NOT FOR USE.

The foregoing representations are subject (1) ~~to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion,~~ (2) to results of subsequent tests and inspections, ~~(23)~~ to correction of minor deviations from the Contract Documents prior to completion, and ~~(34)~~ to specific qualifications expressed to the Owner in writing by the Architect ~~prior to issuance of a Certificate for Payment.~~

§ 3.6.3.3 The issuance of a Certificate for Payment or a Project Certificate for Payment shall not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work, (2) reviewed construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from Subcontractors and material suppliers and other data requested by the Owner to substantiate the Contractor's right to payment, or (4) ascertained how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

§ 3.6.3.4 The Architect shall maintain a record of the applications and certificates for payment.

§ 3.6.4 Submittals

§ 3.6.4.1 The Architect shall review the Construction Manager's Project submittal schedule and shall not unreasonably delay or withhold approval. The Architect's action in reviewing submittals transmitted by the Construction Manager shall be taken in accordance with the approved submittal schedule or, in the absence of an approved submittal schedule, with reasonable promptness ~~while allowing sufficient time in the Architect's professional judgment to permit adequate review.~~

§ 3.6.4.2 In accordance with the Architect-approved Contractor's Project submittal schedule, and after the Construction Manager reviews, approves and transmits the submittals, the Architect shall review and approve or take other appropriate action upon the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. Review of such submittals is not for the purpose of determining the accuracy and completeness of other information such as dimensions, quantities, and installation or performance of equipment or systems, which are the Contractor's responsibility. The Architect's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the Architect, of any construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

§ 3.6.4.3 If the Contract Documents specifically require the Contractor to provide professional design services or certifications by a design professional related to systems, materials or equipment, the Architect shall specify the appropriate performance and design criteria that such services must satisfy. The Architect shall review shop drawings and other submittals related to the Work designed or certified by the design professional retained by the Contractor that bear such professional's seal and signature when submitted to the Architect. The Architect shall be entitled to rely upon the adequacy, accuracy and completeness of the services, certifications and approvals performed or provided by such design professionals.

§ 3.6.4.4 After receipt of the Construction Manager's recommendations, and subject to the provisions of Section 4.3, the Architect shall review and respond to requests for information about the Contract Documents. The Architect, in consultation with the Construction Manager, shall set forth in the Contract Documents the requirements for requests for information. Requests for information shall include, at a minimum, a detailed written statement that indicates the specific Drawings or Specifications in need of clarification and the nature of the clarification requested. The Architect's response to such requests shall be made in writing ~~within any time limits agreed upon, or otherwise~~ with reasonable promptness. If appropriate, the Architect shall prepare and issue supplemental Drawings and Specifications in response to requests for information.

§ 3.6.4.5 The Architect shall maintain a detailed, chronological record of submittals and copies of submittals transmitted by the Construction Manager in accordance with the requirements of the Contract Documents.

§ 3.6.5 Changes in the Work

§ 3.6.5.1 The Architect shall review and sign, or take other appropriate action, on Change Orders and Construction Change Directives, with supporting technical and cost documentation and data, prepared by the Construction Manager for the Owner's approval and execution in accordance with the Contract Documents.

§ 3.6.5.2 The Architect may authorize minor changes in the Work that are consistent with the intent of the Contract Documents and do not involve an adjustment in the Contract Sum or an extension of the Contract Time. Such changes shall be effected by written order issued by the Architect through the Construction Manager.

§ 3.6.5.3 The Architect shall maintain detailed, chronological records relative to changes in the Work.

§ 3.6.6 Project Completion

§ 3.6.6.1 The Architect and the Architect's consultants and Engineers, assisted by the Construction Manager, shall conduct inspections to determine the date or dates of Substantial Completion and the date of final completion; issue Certificates of Substantial Completion prepared by the Construction Manager; receive from the Construction Manager and review written warranties and related documents required by the Contract Documents and assembled by the Contractor; and, after receipt of a final Contractor's Application and Certificate for Payment or a final Project Application and Project Certificate for Payment from the Construction Manager, issue a final Certificate for Payment based upon a final inspection indicating the Work complies with the requirements of the Contract Documents.

§ 3.6.6.1.1 The Architect and the Architect's consultants and Engineers shall provide one Substantial Completion Inspection and one Final Completion Inspection as a part of Basic Services. Where projects have been designed for phased completion, the Architect and the Architect's consultants and Engineers shall provide one Substantial Completion Inspection and one Final Completion Inspection for each phase of the Project. If additional inspections are required, payment to the Architect shall be adjusted in accordance with Section 4.3.

§ 3.6.6.2 The Architect's inspections shall be conducted with the Owner and Construction Manager to check conformance of the Work with the requirements of the Contract Documents and to verify the accuracy and completeness of the list submitted by the Construction Manager and Contractor of Work to be completed or corrected.

§ 3.6.6.3 When the Work is found to be substantially complete by the Construction Manager and Architect, and after certification by the Construction Manager and the Architect, the Architect shall inform the Owner about the balance of the Contract Sum remaining to be paid the Contractor, including the amount to be retained from the Contract Sum, if any, for final completion or correction of the Work.

§ 3.6.6.4 During the tenth month after the date of Substantial Completion, the Architect shall, without additional compensation, conduct a meeting with the Owner to inspect the Project and review the facility operations and performance. The Architect shall prepare a report indicating outstanding work or deficiencies in the Work to be corrected by the Contractor. The Architect shall provide the report to the Owner, Construction Manager and OSE and, at the Owner's direction, to the Contractor. Upon the Owner's request and as an Additional Service, the Construction Manager shall assist the Owner in taking necessary action to see that the deficiencies are corrected. Upon request of the Owner, and prior to the expiration of one year from the date of Substantial Completion, the Architect shall, without additional compensation, conduct a meeting with the Owner to review the facility operations and performance.

§ 3.6.6.5 The Architect shall prepare, from Contractor supplied-information obtained by the Construction Manager, and provide to the Owner a set of reproducible Record Plans showing all significant changes in the work made during construction, as required by the Manual. Plans shall be stamped as "Record Plans". This set of reproducible documents shall be in addition to computer media plans required in Article 14, if any.

§ 3.7 Coordination of Services

Architect shall be fully responsible for coordinating all Architect's Basic and Additional Services required under this

THIS COMPARATIVE DOCUMENT IS FOR REFERENCE PURPOSES ONLY AND IS NOT FOR USE.

Agreement regardless of whether performed by its own employees or by consultants hired by Architect to perform a portion of its services ("Subconsultants"). The purpose of such coordination is to ensure that the services required are performed in a reasonably efficient, timely and economical manner. Architect shall be responsible to Owner for the services furnished to Architect by any Subconsultant to the same extent as if Architect had furnished the service itself. Architect also agrees to coordinate, and resolve any inconsistencies in its work and the work of its subconsultants. All of Architect's contracts with Subconsultants shall be in writing, signed by both parties, and shall include the following provision: "The Owner is intended to be a third party beneficiary of this agreement."

§ 3.8 Compliance with Laws

Architect shall provide a design which when constructed in accordance with the Contract Documents will comply with all applicable federal, state and local laws, statutes, ordinances, rules, regulations, orders or other legal requirements, including but not limited to all zoning, restrictions or requirements of record, building, occupancy, environmental, disabled persons accessibility and land use laws, requirements, regulations and ordinances relating to the construction, use and occupancy of the Project (collectively "Governmental Requirements") existing on the date of this Agreement and which may be enacted prior to Owner's approval of completed Construction Documents.
